

PARENT TRAINING

We have a number of parent workshops on the Page tiger website

[https://view.pagetiger.com/RISENI/parents,](https://view.pagetiger.com/RISENI/parents)

These are readily accessible to parents and no password is required. Please feel free to share this within school, on social media pages for school or in any school websites. The videos are short and aim to provide parents with strategies to support their child on a number of topics such as anxiety, motor development, speech and language development, sensory processing and there are some practical workshops to help with sleep, attention and listening skills and getting your child ready to learn. There are also a number of leaflets, videos and useful links for parents to sign post to supports available.
